Vadodara, Gujarat, India.

PREMIUM OPACITY. MAXIMUM BRIGHTNESS.

Ruvon International Pvt. Ltd. acts as a strategic bridge between chemical manufacturers and industries that demand excellence. We specialize in the sourcing, alignment, and global supply of high-performance Dyes and Pigments.

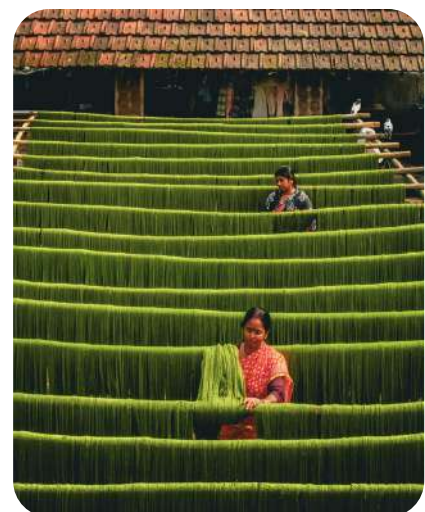

At Ruvon International, we don't just trade colors; we engineer consistency. Located in the heart of India's chemical hub, Vadodara, we understand that for a textile mill or a paint manufacturer, the smallest deviation in shade can mean a massive loss. We act as your Strategic Bridge, ensuring that you get factory-direct quality with local technical support.

Vibrant Solutions for Modern Textiles.

In the dyes and pigments industry, consistency is the hallmark of quality. We ensure that your production line never suffers due to shade variation or impurity.

We share detailed technical data sheets and provide physical samples for your lab evaluation to ensure perfect shade alignment.

What We Do

At Ruvon International, we act as a strategic bridge between world-class chemical manufacturers and industries that demand excellence. We specialize in the end-to-end sourcing, technical alignment, and global supply of high-performance Dyes and Pigments, ensuring your production lines stay vibrant and consistent.

Our Core Services

- ✔ Global Sourcing & Procurement:
- ✔ Technical Alignment - Sampling
- ✔ Contract Manufacturing
- ✔ Pay-Per-Click Advertising (PPC)
- ✔ Content Marketing
- ✔ Email Marketing Campaigns

In the complex world of colorants, precision is everything. We ensure that every shipment matches your approved pre-purchase sample with zero deviation. Our dedicated quality team conducts multi-level inspections—from particle size analysis to packaging durability—ensuring that you receive materials that are factory-ready and risk-free. Whether it's for textiles, paints, or plastics, Ruvon provides the chemistry that defines your brand's quality.

Solution - Oriented & Visionary

In the dyes and pigments industry, consistency is the hallmark of quality. We ensure that your production line never suffers due to shade variation or impurity. Our logistics process ensures that the material reaches your port or factory floor in factory-fresh condition, handled with expert safety protocols.

Sample Matching

We guarantee that every shipment matches the approved pre-purchase sample with zero deviation.

Technical Compliance

We ensure 100% adherence to international standards, including REACH, GOTS, and Oeko-Tex norms.

Packaging Integrity

We ensure that all materials are packed in seaworthy, leakage-proof, and moisture-resistant packaging (25kg to 1MT Jumbo Bags).

OUR PRODUCTS

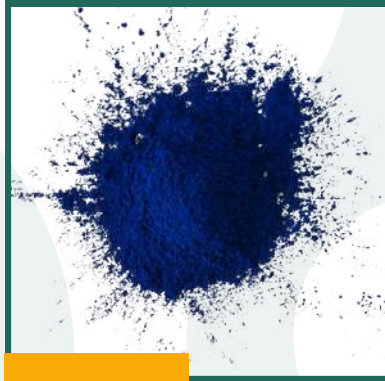

REACTIVE BLACK B

Reactive Black 5 (133%).

CI No: Black 5
Pkg: 25kg Drum

Type: VS based
Use: Cotton Dyeing

PIGMENT BLUE 15:3

Phthalocyanine Beta Blue.

CAS: 147-14-8
Pkg: 10/25kg Bag

Light Fast: 8 (Excellent)
Use: Ink/Plastic

ACID RED 18

Ponceau 4R (Brilliant Scarlet).

CI No: 16255
Pkg: 25kg Carton

Solubility: Water
Use: Wool/Food

PIGMENT GREEN 7

Phthalocyanine Green.

CAS: 1328-53-6
Pkg: 25kg Drum

Heat Stability: 280°C
Use: Paint/Rubber

DIRECT BLUE 86

Turquoise Blue GL.

CI No: 74180
Pkg: 25kg Box

Affinity: Cellulose
Use: Paper/Cotton

SOLVENT YELLOW 14

Oil Orange E.

CI No: 12055
Pkg: 25kg Drum

Solubility: Oil/Wax
Use: Shoe Polish

REACTIVE RED ME4BL

Reactive Red 195

CI No: 195
Pkg: 25kg Drum/Box

Type: ME Series (HE)
Use: Cotton Exhaust

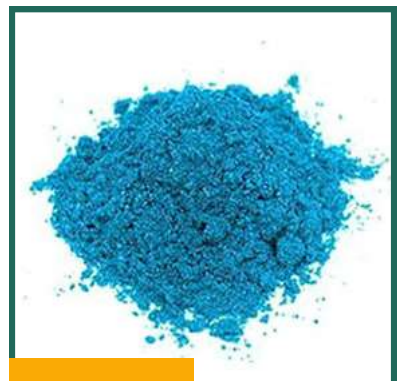

BASIC VIOLET 10

Rhodamine B 540%.

CI No: 45170
Pkg: 25kg Iron Drum

Color: Bright Pink
Use: Paper/Textile

REACTIVE TURQ BLUE G

Reactive Blue 21 (Turquoise)

CI No: Blue 21
Pkg: 25kg Drum

Affinity: High
Use: Cotton/Cellulose

REACTIVE ORANGE 3R

Reactive Orange 16 (Bright Orange).

CI No: Orange 16 Type: VS Series
Pkg: 25kg Drum / Bag Use: Viscose Dyeing

TITANIUM DIOXIDE

Pigment White 6 (High Opacity).

CAS: 13463-67-7 Form: White Powder
Pkg: 25kg Paper Bag Use: Paint, Plastic

CARBON BLACK

Pigment Black 7 (High Jetness).

CAS: 1333-86-4 Heat Stability: >300°C
Pkg: 10kg/20kg Bag Use: Rubber, Ink

QUINACRIDONE PINK

Pigment Red 122 (High Performance).

CAS: 980-26-7 Light Fast: 8 (Excellent)
Pkg: 10/25kg Drum Use: Premium Coatings

REACTIVE YELLOW MERL

Reactive Yellow 145 (Golden Yellow).

CI No: Yellow 145 Solubility: >100 g/l
Pkg: 25kg Drum Use: Cotton Dyeing

REACTIVE BLUE ME2RL

Reactive Blue 194 (Navy Tone).

CI No: Blue 194 Temp: 60°C
Pkg: 25kg Drum Use: Dark Navy Shades

RUBINE TONER

Pigment Red 57:1 (Lithol Rubine).

CAS: 5281-04-9 Heat Stability: 240°C
Pkg: 10kg / 25kg Bag Use: Printing Inks

REACTIVE YELLOW 145

Yellow MERL

CI No: Black 5 Type: VS based
Pkg: 25kg Drum Use: Cotton Dyeing

REACTIVE BLACK 31

Black RL

CI No: Black 5 Type: VS based
Pkg: 25kg Drum Use: Cotton Dyeing

FULL DYES INVENTORY

PRODUCT NAME	C.I. NAME	APPLICATION	
Reactive Yellow 160	Yellow ME4GL	Cotton, Viscose Dyeing	
Reactive Yellow 186	Yellow ME3RL	Cotton Knitwear	
Reactive Red 195	Red ME4BL	Cotton Dyeing	
Reactive Red 223	Red ME3BL	Cotton, Towel Dyeing	
Reactive Red 250	Red ME6BL	Deep Shades Dyeing	
Reactive Red 198	Red RB	Cotton Fiber Dyeing	
Reactive Blue 194	Blue ME2RL	Cotton Exhaust (Navy)	
Reactive Blue 222	Blue MEBR	High Exhaust Cotton	
Reactive Orange 122	Orange ME2RL	Cotton Dyeing	
Reactive Black 5	Reactive Black B	Cotton Dyeing & Printing	
Reactive Mix Black	Black WNN	Cotton Fabric Dyeing	
Reactive Black 31	Black RL	Grey Shades Cotton	
Reactive Blue 21	Turq Blue G	Cotton Printing & Dyeing	
Reactive Blue 19	Blue MR	Textile Printing	
Reactive Blue 13	Blue 5R	Viscose & Cotton	
Reactive Blue 28	Blue 3R	Cotton Yarn Dyeing	
Reactive Red 35	Red 5B	Cotton & Rayon Print	
Reactive Red 106	Red C2G	Cold Pad Batch Dyeing	
Reactive Red 180	Maroon V	Deep Shades Cotton	
Reactive Yellow 42	Yellow FG	Cotton Printing	
Reactive Yellow 77	Yellow R	Cost-Effective Dyeing	
Reactive Orange 16	Orange 3R	Cotton Dyeing & Printing	
Reactive Yellow 15	Yellow GR	Discharge Printing	

FULL PIGMENT INVENTORY

PRODUCT NAME	C.I. NAME	APPLICATION	
Pigment White 6	Titanium Dioxide Rutile	Cotton Printing	
Pigment Blue 15:3	Phthalo Blue Beta	Cost-Effective Dyeing	
Pigment Green 7	Phthalo Green 7	Cotton Dyeing & Printing	
Pigment Black 7	Carbon Black	Discharge Printing	
Pigment Red 57:1	Rubine Toner	Cotton & Viscose	
Pigment Red 101	Red Oxide	Kraft Paper & Box	
Pigment Yellow 34	Chrome Yellow Lemon	Cotton Blends	
Pigment Yellow 12	Permanent Yellow G	Paper Pulp Dyeing	
Pigment Red 122	Quinacridone Pink	Paper & Cotton	
Pigment Violet 23	Carbazole Violet 23	File Covers & Tissue	
Pigment Blue 15:0	Phthalo Blue Alpha	Paper Dyeing	
Pigment Blue 15:1	Phthalo Blue Alpha-S	Paper Board	
Pigment Blue 15:4	Phthalo Blue Beta-C	Polyester Fabric	
Pigment Green 36	Phthalo Green 36	Polyester Fabric	
Pigment Red 2	Permanent Red F4R	Polyester Yarn	
Pigment Red 3	Toluidine Red	Polyester Suiting	
Pigment Red 53:1	Red Lake C	Polyester Fabric	
Pigment Red 48:2	Red 2B Toner	Denim Dyeing	
Pigment Red 170	Yellow FG	Cotton Printing	
Pigment Blue 15:3	Yellow R	Cost-Effective Dyeing	
Pigment Red 254	Orange 3R	Cotton Dyeing & Printing	
Pigment Yellow 3	Yellow GR	Discharge Printing	
Pigment Red 57:1	Purple H5R	Cotton & Viscose	

OUR PROCESS

Our workflow is a meticulously designed journey aimed at eliminating procurement risks while ensuring absolute shade consistency for your production line. The process begins with Strategic Sourcing, where we identify and verify global manufacturers through rigorous technical audits to ensure a reliable and high-quality supply base.

Strategic Sourcing & Selection

We identify and verify global manufacturers based on strict ISO and technical audits to ensure a reliable supply base.

Technical Alignment & Sampling

We share detailed technical data sheets and provide physical samples for your lab evaluation to ensure perfect shade alignment.

Quality Inspection (PDI)

Our team conducts a Pre-Dispatch Inspection to verify color strength, particle size, and packaging durability before the goods leave the factory.

Customization & Branding

We offer private labeling and custom packing sizes as per your factory's intake requirements or retail brand identity.

Global Logistics & Compliance

Ruvon manages the complexities of marine insurance, shipping documentation, and custom clearance for a hassle-free delivery experience.

Why Choose Us

In a market where shade consistency and purity are paramount, Ruvon International stands as your trusted partner. We bridge the gap between world-class dye manufacturers and your production line, ensuring every molecule of color meets international industrial standards.

We deliver vibrant, high-performance color solutions with zero shade deviation and comprehensive technical support to fuel your business growth.

Simple, Effective, and Affordable

We don't just supply chemicals; we manage the entire lifecycle of your procurement to eliminate risk. From precise sample matching to handling complex global logistics and regulatory documentation like REACH and GOTS, Ruvon ensures your supply chain remains seamless and factory-ready. Our commitment to quality control means you receive the same brilliance in every batch, every time.

Global Sourcing Network

Strict Quality Control

Custom Packaging & Labeling

Move Possibilities

Global & Domestic Delivery Available

Bulk & Container Shipments

DG Cargo Certified Handling

Our mission is to bridge the gap between manufacturers and global buyers by offering tailored supply chain solutions, technical documentation (COA, MSDS, DG Declarations), and flexible Incoterms (FOB, CIF, EXW). Whether you need bulk shipments in ISO tanks, jumbo bags, or custom-labeled drums. We deliver with precision, professionalism, and reliability.

We ship worldwide with end-to-end logistics coordination from origin to destination port. Our operations cover major global markets. For regulated materials, we ensure safe transport with DG (Dangerous Goods) certified handling, proper labeling, UN-compliant packaging.

Let's Work Together

Ready to streamline your procurement and elevate your industrial standards? At Ruvon International, we believe that the right partnership is the most powerful catalyst for growth. Whether you are seeking high-purity reactive dyes, specialized drilling chemicals, or a dedicated partner for private labeling and custom packaging, our team is equipped to turn your requirements into reliable solutions.
